With a full consciousness that the

subject has been discussed before the

public, yet in deference to a learned

gentleman who has engaged in

controversy with ingenuity, if not

*Easter No. 2.

Mr. Keesee, of R. B. S., of Pitts-

boro, has replied to my article on

Easter. I know not who he is, but he

is manifestly a man of culture, and

should be a man of letters. His

article is a masterpiece of logic and

reasoning. It is a pity that he

should fall at Jerusalem at 6 P. M.,

Not so, I think. It would be full

perpetual hatred to the descendants

of Abraham? The Prayer Book says

nothing about Saturday night, but

the beginning of Sunday; but we are

told that the table makers were to

know whether the moon

was full or not. The

ecclesiastical method pretends to no

such accuracy of calculation. Must

not the fact be determined astronom-

ically, if determined at all? In a

Thursday-moon rule, an invention

to save the tables from rejection by

the churches?

10. There can be no objection to a

general agreement that Easter shall

begin with a specific meridian and

degree of longitude. Then, for the

whole earth, Easter would be forty-

eight hours long, and for each local-

ity four hours. But no such agree-

ment or idea has been entertained.

11. As to the rule in the Prayer

Book, Easter is an event as precise

and determinate as the Nativity. It

is twice as frequent as the Nativity

throughout the world, and through-

out a space of twenty-three days

lasting the minds of many who ap-

preciate its sacred memories? Could

it not be confined within seven days

at most, with the beginning and

end, and with real benefit to

Christians generally?

Some weeks since we ventured the

make Raleigh a general market and

thus get it out of the summer death

makes it die. We spoke for tobacco

factories and warehouses, and for

cotton factories and manufacturers.

We are glad to see this subject

working on the streets. Prominent

citizens are agitating it. Said a dis-

"Something of this sort, sir, must be

done. Our people must have work.

It is a way of getting the people

I have just seen one of the wealthiest

men in town and he is stooping in

THE DAILY NEWS is the largest daily newspaper in the State—the only paper in Raleigh that receives the Telegraphic Reports, and the leading advertising medium in North Carolina.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It contains 40 columns of plain printed news from every section of the country, and is edited with special reference to the farmer and industrial classes of the country.

CIRCULATION. The DAILY NEWS has the largest circulation in the State, and over double the circulation of any other daily in Raleigh.

The combined circulation of the Daily and Weekly News is nearly 5,000, and reaches more readers than any other paper in North Carolina.

NOTICE TO CORRESPONDENTS. We cannot notice anonymous communications. In all cases we require the writer's name and address, not for publication, but a guarantee of good faith.

We cannot, under any circumstances, return rejected communications, nor can we undertake to preserve manuscripts.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only one dollar per year, postage paid, contains 40 columns of plain printed news from every section of the country, and important advertisements. Always Cash.

DISTRICT CONVENTION. A Convention of the Democratic-Conservative voters of the Fourth Congressional District will be held in the city of Raleigh on Tuesday the 13th day of June next, for the purpose of nominating a candidate for Congress and a Presidential Elector, and selecting two delegates to the St. Louis Convention. A full attendance is earnestly desired. Each county will be entitled to one vote for every one hundred votes and fractional part over fifty given for Merrimon in 1872.

By order of the District Executive Committee.

H. A. LONDON, JR., Chairman.

March 31st, 1876.

Papers in the District will please copy.

YADKIN COLLEGE. We return thanks to the Managers and Chief Marshals of Yadkin College for the invitation to attend the exercises of the Annual Commencement on the 25th of May.

The New York Democratic Convention has agreeably disappointed expectation by the moderation of its demands. It recommends its favorite, Henry J. Tilden, but it does not bind its delegates, leaving them free to act with the majority. The Convention could not have done less than this. It acted with judgment when it did no more; and that discreet abstinence from imperative demand will go farther to secure the nomination of Mr. Tilden than a fraudulent alternative of *ant Caesar* net nullus.

A good augury of harmonious action in the St. Louis Convention is thus made.

BLUE JEAN CLUBS. Indiana is falling back into the high old days of 1840, and will raise as wild a furor for Williams and Blue Jeans as for Harrison and Hard Cider and Log Cabins. It seems to us that the people want no concrete form of expression for their political sentiments in the face of such solid facts for their opposition to the Republican party. But enthusiasm is needed to overcome the steadfast resistance of the party fortified in its hold by money and patronage. Under enthusiasm men become unselfish and generous, and disdain the influences of money. And so the Blue Jeans clubs will fire Indiana to the pitch of fervor that will sweep all before it.

TO BE CONSIDERED. If the Constitutional Amendments are adopted by the people, as they no doubt will be, the very important duty will devolve on the next Legislature of conforming the Statute law to the amended, and very much changed Constitution. To this duty the very best legal talent and the soundest practical judgment must be applied. The framing of the

laws must not be entrusted to inexperienced. We therefore urge upon the Democratic counties to be wise in their selections, putting forth their best men. We suggest what will probably occur to all, but it is well to keep the fact in view, that the Legislature of next winter, if the Constitution is adopted, will require more than the usual legislative average of legal knowledge and experience in the working of the laws. We hope our brethren of the press throughout the State will second our views.

THE APPEAL OF MRS. S. H. WADDELL.

The appointment of this lady as Corresponding Secretary of the Historical Department of the Museum of Independence Hall, Philadelphia, and her acceptance of the appointment, was the occasion of a stirring appeal to the people of North Carolina, which we published a few days ago, and which the State press has most generally published also. There can therefore be no ignorance of the subject of the appeal. In spite of the denial of Legislative aid, and notwithstanding the aversion of a very respectable minority, both of the press and the people, the Centennial is a fact, grown almost to its full proportions, and soon to expose its tremendous magnitude to the world. If North Carolina is not there in her sovereign capacity, State pride will carry there many private contributions. It is for these, in one branch, that the appeal is made. No State ought to be richer in its oratorical moments than North Carolina, and none ought to be prouder to bring them from their seclusion than the descendants of those North Carolinians who made the name of State glorious in the revolutionary struggle. Almost the very grounds occupied by the Exposition is stained with the blood of North Carolina heroes, and General Francis Nash gave up his life within sight of where its magnificent buildings now stand. Surely some mementoes of him, and of others remain, which will be viewed with special interest by Americans. They will have the effect of reviving memories of the fact that once we had a common cause, and were a common people. They may bring us back to that point again.

It will be observed that whatever is entrusted to the charge of Mrs. Waddell will be most carefully guarded and preserved. Prof. Kerr will provide apartments in Raleigh for the articles intended to be sent to Philadelphia to be exhibited under the appointment of Mrs. Waddell.

DEVELOPMENTS AT HOME.

Since the Democratic Congress has unearthed so much of rascality in every mine in which they have worked, we have watched with some anxiety to see them turn their attention to North Carolina where we have a most lively impression of misdoings in the past, if they are suspended in the present. The searching eye will, we believe, soon be directed into the affairs of this State, and the mysterious abundance of money which everybody knew was applied to carry the gubernatorial and Presidential elections in 1872, but which nobody could trace to its exact source, bids fair to be explained. We publish in another column the letter of a Raleigh correspondent to the New York Herald on this dainty bit of secret party history. Who he is we cannot conjecture, but he evidently knows what he is talking about, for his information tallies with the impressions and the little scraps of knowledge the defrauded and defeated Democrats could gather at the time. That correspondent says Albott came to North Carolina from the Federal City in June 1872 loaded down with money. The funds were not entrusted to Samuel F. Phillips for the reason that he most probably would have refused to handle funds improperly obtained. Pool, in all probability got this money from Attorney General Williams, being a part of the secret service fund expended for election purposes elsewhere. Another and more refreshing part of the letter is that which refers to the employment of bogus revenue and postal agents to aid in the campaign. We know, from personal knowledge, the wonderful multiplication of these agencies in the county of Orange, and we presume all other parts of the State were equally as liberally blessed. These officers were paid five dollars a day, and besides their own personal services in the cause, each one formed the nucleus of a little band of corruption. In truth, no service was exacted but to corrupt. Rumor involves a large number in the application of the fund brought in by Albott, or subsequently supplied. The Hon. John A. Hyman was one of the distributors, and also his father, and we presume they felt no scruples in doing what was then, and what would be now under similar circumstances, considered the bounden duty and special delight of a good party man. Practices had consolidated into prin-

ciples and what was authorized custom carried no moral taint. We might in connection with the Solicitor go somewhat farther and show the unrenitting fidelity and success with which he has pursued office, but individualizing for the present is going out of the way, when we only intended to refer to the general operation of a system.

Now we desire the investigating committee to come into North Carolina affairs. It will do our hearts good, that exposure of the villainy by which the Democrats were swindled out of the election of Merrimon. That free use of the public money did it, and that secret service fund was the coffer from which it was drawn. Our members of Congress can be at no loss to find subjects of investigation, nor can they fail to find the proper parties from whom to obtain evidence. Begin with Albott, and that will open up the trail.

ELECTIONEERING IN THE SOUTH.

Employment of Government officers to Elect Grant.—The Campaign of 72.—Money that was Expended in North Carolina.

RALEIGH, N. C., April 24, 1876.

Whitley's startling story touching the use of Secret Service money in the election of 1872, unheeding as it did, the inclusion of Southern Democrats in the Merrimon-Caldwell contest of the summer of 1872.

TRACES OF SECRET SERVICE MEN.

There is at present no trace of Secret Service money used in this State for election purposes in 1872 in the manner described in the case of John E. Lavinport; but the State is full of such notorious Secret Service men as the infamous Beach and the now repentant and Christian Hester. These men were not content to be on the look-out for Ku-Klux, and their expenses and disbursements were dutifully covered under what the late Attorney-General playfully suggests as "a legitimate expenditure."

The Marshall's office was very liberally supplied with money that year to aid the suppression of the Ku-Klux, and almost every township in the State had its deputy marshal put down the grim, ghastly foe; but of the \$250,000 disbursed by Marshall Carrow in 1872, not a farthing can now be traced to other sources than "legitimate expenditure," thus serving the ends of justice at its cost.

SPECIAL AGENTS OF POST OFFICE DEPARTMENTS.

During the campaign of 1872 quite an army of special agents of the Post Office Department were appointed in this State. A number of their appointments and of the service they performed is presumably to be found at the department in Washington. But the most original and animated statesman of the campaign, and the most conspicuous array of revenue officers, some hundreds of "designated assistant assessors" were appointed by Commissioner Douglas and Secretary Boutwell, and the array of the President, and these swarmed all over the State. They received \$5 per day as revenue officials and performed no duty whatever as such except to canvass for the republican party and either buy up or by intimidation silence voters. If a committee should see fit to keep in the office of the Commissioner of Internal Revenue they would be carried at the amount of false certifying false swearing and shameless swindling perpetrated through the revenue system during the North Carolina campaign of 1872. The amount of government money so squandered in this State for election purposes could not have fallen short of \$100,000. This, however, considered a very small sum in government circles. Secretary Bristow was officially informed on the subject before the meeting of this Congress, but it is not deemed "expedient" to inquire into the matter lest it should prove Congressional investigation.
